TEN STICKS OF DYNAMITE EXPLODED

Creating Horror in Gang of Italian Laborers Constructing a Sewer for W. C. Fishburn in Mt. Olive Borough.

Many who have read the big head lines in the Pittsburg papers last night and this morning describing an awful accident and death to a number of foreign laborers in Mt. Oliver borough, Pittsburg, will readily discern that the unfortunates were in the employ of W. C. Fishburn, who practically made his home in Monessen for quite a time, he having superintended much of the sewer work about this town.

Ten sticks of dynamite exploded at noon yesterday in the midst of twenty-six men at a sewer excavation while they were partaking of the mid-day meal huddled about a bonfire. — Two are dead, twelve are in hospitals and only two escaped injury.

In an interview Mr. Fishburn, a member of the contracting company of Liberty avenue, which is laying a large sewer along Laughlin avenue, Mt. Oliver, said: "This is the first accident with dynamite we have ever had. Our superintendent, Mr. George, tells me that he had especially warned the Italian boss, of the gang working in the ravine, not to place any dynamite near their fire.

"We feel that none of the responsibility for this accident rests upon us, for every precaution is taken to avoid such accidents. As far as I can learn, the Italians had ten sticks of dynamite, and by they had them close to the fire, especially when they were congregated about it at the noon hour, is something that probably will never be known. We had permission from the borough council to use the dynamite, as there is a soft rock formation to go through".

CAPTURED IN OHIO

"Gold Tooth Diamond" Who Shot Private Hershey During Wireton Raid now in Greensburg Jail.

"Gold Tooth Diamond," as he calls himself, the negro who shot and seriously wounded Frank A. Hershey, of Troop A, of the State police, during a raid on speakeasies and dives, at Monessen, September 8, was caught at Columbus, O., a few days ago, and is now in prison in that city.

A photograph of the prisoner was received at the Greensburg barracks of Troop A, Tuesday and he was identified by one of the troopers as the man who did the shooting.

In the fray, Trooper Hershey had one arm and leg broken by bullets from the negroes guns as they attemped to escape from one of their dives. A trail was followed, and, after the greatest diligence on the part of the officers. "Gold Tooth Diamond" has at last been rounded up. He is a desperate negro, and it is said that he has killed his man.

Chief of Police Woolsey and Sergeant McCall of State police went to Columbus for the prisoner and the authorities there refused to turn him over but they brought him to Greensburg and delivered him to Sheriff Seanor.

SCREW DRIVER WAS FOUND.

In House Where Burglars had Invaded But Instrument Could not be Identified.

After the robbery of the Sibbett and Scanlon residences the other night, an electrician's screw driver was found near the Scanlon place which aroused considerable suspicion, and all day yesterday some neat detective work was attempted among employes in the electrical department of some of our local mills, but nothing could be learned that would lead towards the identification of the robbers However, a close watch is being kept on certain suspicious persons and it will be only a question of time until they get trapped up.

GOOD BILL FOR TONIGHT.

In connection with a strong dramatic production of "Dora Thorne", which follows closely the book by that name, the author of which is Bertha M. Clay, amateur night will be given by the Chauncey Keiffer company. There is a large list of entries, promising a lively competition among the local aspirants for histronic fame.

Among the entries for tonight are Christopher Parnell and James Conti, in a duet; James Wilson, negro songs; Jack Johnson, acrobatic dancing, Gertrude Elliott, ballads, William Dimeans, banjo specialty; Edward Morgan, recitations, Mary Marshall, Mary Talpas, Emma Roberts, Henry Malcolmer, toe dancing, and James Worthington, parodies.

The company scored a big hit last evening in "Deadwood Dick", the play proving to be one of the strongest Western dramas ever produced by a repertoire company here.

EVIDENCE IS NOW CONCLUDED

With Regard to Grade Crossing at River Street in Borough of Monessen.

Yesterday the last of the evidence was taken before the commissioners regarding the establishing of a grade crossing at River Street in the borough of Monessen, and the matter is now up to the three men for a final decision. They are W. O Byers, J. Q Pinkerton and Warren Matthews, and they have until the sixth day of December to give their decision.

The railroad company by its engineers and witnesses still persisted in showing that it would be practical to go under the tracks. It was practically an engineers fight yesterday, J. F. Irwin and two assistants testifying for the borough, and the P. & L. E. engineers for the company. W A Miller, a local teamster was called by the borough to testify to the amount of clearance required for general transfer work, and F C. Satley of the Page Mill was a witness for the railroad company. Much interest is being centered on the outcome of the case.

Several detectives have been working on the case the past month, but no arrests have been made and it is not yet known what clues have been obtained. Mr. Perkins of the Perkins Detective Agency came to Monessen today to be present at the inquest, but he would not make any statement for publication. The inquest was started at 1 o'clock this afternoon in the council chamber and will last until some time tomorrow.

ENTERTAINED SKATING PARTY

Mrs. H. D. Grable entertained at a skating party last evening in honor of a number of Charleroi friends, teachers in the public schools of that city. Mrs Grable proved herself a charming hostess and the Charleroi guests departed for their homes on the 11.30 car, thanking her for a most enjoyable evening.

The guests were the Misses Gertrude Cooper, Mary Lewis, Mary Gregg, Jeannette Campbell and Winifred McCreery of Charleroi and the Messrs. Patton, Smith, Parry, McClain, Seargeant and Grable of this city.

ENTERED AT POSTOFFICE AT MONESSEN, PA. AS SECOND-CLASS MATTER.

Iowa's corn crop this year is estimated at 398,000,000 bushels.

Some people do not indorse the new spelling, but Absalom G. Spurling, the postmaster at Squawville, Ariz., gives it his hearty approval.

Perhaps, before long, the telegraph and telephone companies will realize the fact that if they wish to keep their poles intact they must not set them along the antomobile race track.

Some dairymen have been wondering what the Pure Food Commission would do to colored butter under the new law. The oleomargarine law, in defining butter, states that it contains coloring matter. Thus the use of a satisfactory color cannot be denied. The battle over coloring matter will be made against what are known as the coal tar dyes. These mineral substances are without doubt injurious when used in large quantities, though not so when used ordinarily in coloring butter. In case these dyes are barred dairyman may, if they like, use the harmless vegetable colors.

Sighs For the Old Days.

What stopped the old housewife hab it of taking the tablecloth out after each meal and shaking it on the ground to the edification of the dog, cat, chickens and birds? As a boy we used to delight in that shake, especially if a comely matron or a pretty girl had hold of the cloth her body swayed so gracefully as she handled it. No other motion, not even the rhythmic dance, set off her figure to better advantage, and the minxes knew it and always managed to give those flirts when admirers were handy by. But some one invented a brush and a pretty receiver, and a new fashion was set.—Washington (Ia.) Press.

The American Girl.

The American girl is a most interesting contradiction. She is regarded as the world's greatest representative of feminine freedom, and yet at the root of her character she is the most prudish of girls. She makes the best friend for a man, and yet his worst lover. She cannot deny that she is a flirt, and yet she is at heart hard and selfish. She will do the most unconventional things, and yet in no part of the world is etiquette more insisted on than in American society.—Madame of Loudon.

A Certain Advantage.

"A woman can always get the better of a man in an argument," said the visitor.

"Yes," answered Miss Cayenne. "But we should remember that in an argument a woman always has a certain advantage. She is not expected to be a gentleman."—Washington Star.

Couldn't Lift Ten Pounds.

Doan's Kidney Pills Brought Strength and Health to the Sufferer, Making Him Feel Twenty-Five Years Younger.

Sick kidneys cause a weak, lame or aching back, and a weak back makes a weak man. Can't be well and strong until the kidneys are cured. Treat them with Doan's Kidney Pills. Here's the testimony of one man cured.

J. B. CORTON.

J. B. Corton, farmer and lumberman, of Deppe, N. C., says "I suffered for years with my back. It was so bad that I could not walk any distance nor even ride in easy buggy. I do not believe I could have raised ten pounds of weight from the ground, the pain was so severe. This was my condition when I began using Doan's Kidney Pills. They quickly relieved me and now I am never troubled as I was. My back is strong and I can walk or ride a long distance and feel just as strong as I did twenty-five years ago. I think so much of Doan's Kidney Pills that I have given a supply of the remedy to some of my neighbors and they have also found good results. If you can sift anything from this rambling note that will be of any service to you, or to any one suffering from kidney trouble, you are at liberty to do so."

A FREE TRIAL of this great kidney medicine which cured Mr. Corton will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

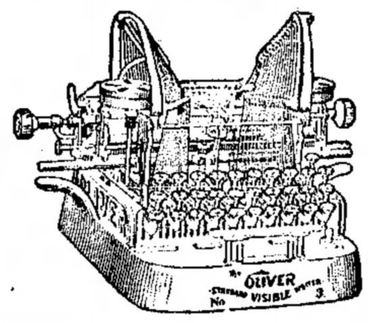
THIS TYPEWRITER
DELIVERS THE GOODS

It's the Oliver—the Standard Visible Writer.

The Oliver Typewriter is just like an athlete stripped for a race



It is free from unnecessary multiplicity of wires and springs

No net work of flimsy keys to get tied into hard knots

The nimble-fingered stenographer can put talk into type with this machine just as rapidly as she takes your dictation.

For no matter how swiftly she writes, she can see just what she's doing.

The keyboard is so wonderfully responsive to the touch of the finger-tips that speed comes without effort.

The facts that make for speed are its visible writing, its light, elastic key-touch, and it's all 'round simplicity. It has the fewest possible wearing points, and it prints with a downward stroke.

The
OLIVER
Typewriter

THE STANDARD VISIBLE WRITER

Is a flawless piece of mechanism, combining the strength of tested steel with the perfect adjustment of the works of a watch. You can use an Oliver a life time and the type will not lose alignment

It never suffers from nervous prostration; requires only a little oil and plenty of exercise to keep it at the highest point of efficiency.

The hum of Oliver Typewriters is heard in the most progressive business houses in the land. Sales increasing at a phenomenal rate. Get acquainted with the Oliver! Write for the Oliver book—we send it free with *our* compliments.
